

# ANERT

Agency for Non-Conventional Energy & Rural Technology  
(Established by Government of Kerala)

No. 4984/IS/ANERT/2011

02.03.2012

To

Sir,

Sub: "SOLAR HOMES" International Conference on Solar Homes & Green Energy  
Expo – delegate registration - reg.

**A**NERT (Agency for Non Conventional Energy and Rural Technology) is organising an "International Conference **"SOLAR HOMES"** at Thiruvananthapuram (MASCOT HOTEL) from 13-March-2012 to 15-Mar-2012.

The theme of the conference is "**Solar Homes**". The Conference focuses on the technical and socio-econo-ecological aspects of **Roof mounted Grid connected Solar Electric Power Systems** (to generate electricity from the roof top and to sell the electricity thus generated to Electric Supply Company by feeding to the nearby distribution line).

The objective of the conference is to provide a forum to professionals, policy-makers, industry, non-government organizations (NGOs) and other segments of the society to share knowledge and experience on various aspects of renewable energy.

During the year 2012-13 ANERT is aiming a generation of 10 MW from such installations. As a prelude launching of this 10,000 SPV Home programmes, experts having practical experience in such projects are sharing their knowledge and expertise in this conference. We have eminent speakers/faculty from Australia, Germany, Korea, China and Singapore, Thailand, UK.

An "Expo on Green Technology" is also planned along with this conference. Leading manufactures and technology providers of various renewable energy technologies are expected to participate.

Since top officials and decision makers from Government of India, Government of Kerala, all State Nodal Agencies and other stake holders are participating in this International conference, this will be a golden opportunity for manufactures and suppliers of Solar equipment and systems to display their wares to a select group who decides the future of Solar energy programmes in the country.
