# KERALA STATE RENEWABLE ENERGY AWARDS - 2022

## GUIDELINES

### 1. OBJECTIVE:

In its efforts to promote excellence in various areas of New and Renewable Energy technologies in the State, Government of Kerala has constituted the “Kerala State Renewable Energy Awards” from 2017 onwards. The Award is given in recognition to the selected enterprises, organizations and individuals who have made systematic and serious attempts for efficient utilization of Renewable Energy Technologies, its Research & Promotion etc. The qualifying period for the Renewable Energy Awards for this particular year would be 2021-22.

Accordingly, the Renewable Energy Award - 2022 would consider activities undertaken in the State of Kerala, from 1<sup>st</sup> April 2021 to 31<sup>st</sup> March 2022.

### 2. THE AWARDS:

The awards are proposed to be given in the form of a Plaque with appropriate citation on such award, as may be decided by the State Level Monitoring Committee for Renewable Energy Awards in Kerala.

## 4. CRITERIA FOR JUDGING THE MERIT

- 4.1 The Committee will decide the recipient of the awards on the basis of outstanding achievements and contribution in the field of Renewable Energy. The Award may not necessarily be decided on the basis of only quantitative achievements but also taking into account the various other factors such as Innovative techniques and Technologies adopted, commitment of the Management, Environment Friendliness, Sustainability potential of the organizational set-up, contribution made in promotion of the message of Renewable Energy in the Society etc.
- 4.2 The members of the Award Committee or their nominees may visit participating enterprises/organizations/individuals for verification of data submitted, if felt necessary, and it will be obligatory on the part of the participating units to provide necessary assistance and co-operation for such visits.
- 4.3 On the basis of the scrutiny of the applications and site visit the Committee will prepare a short list of the applicants in each category. The shorted listed candidates will be invited for a presentation before the Committee. The candidate shall bear all the expenditure in connection with his travel and preparation for the presentation if any.
- 4.4 The aspects that could be considered while judging the application includes but not limited to the following factors:
- Total installed capacity of the implemented Renewable project
  - Research and Development component involved
  - Usage of Innovative technologies
  - Technical and environmental risk
  - Cost of energy saved through energy generation using RE resources
  - Sustainability

**The Committee's decision would be final and no appeal for re-consideration shall be entertained.**
