File No.: ANERT-TECH/259/2020-S(NEP)

NOTE

Based on the presentations made before the Proposal Evaluation Committee (PEC) for Group 3 (Renewable Energy-General) on 10/06/2022 and the discussions held thereafter, the PEC has recommended 3 proposals (SRI-09/2020-21, SRI-10/2020-21 & SRI-54/2020-21) to be considered for financial support under SRI 2020-21 after revision as detailed in **Annexure 1** subject to the Guidelines of the Programme.

Apart from the conditions specified in the Guidelines, the following conditions shall also be applicable for the proposals finally selected for financial support.

1. Strict timelines would be fixed during the approval stage itself in consultation with the applicants.
2. There shall be no extension of timelines.
3. There shall also be no relaxation of the conditions stipulated.
4. Quarterly Status Report shall be submitted.
5. There shall be a quarterly review mechanism and report submitted to The Director, ANERT.
6. Release of payment shall be commensurate with progress of the work getting reviewed quarterly.
7. The final payment shall be released only after acceptance of the Project Completion Report and other related documents by ANERT.
8. In case of any deviations from the stipulated conditions or if the Evaluation Committee is not satisfied the project will get terminated and the whole amount will have to be paid back to ANERT.

Individual communications containing specific instructions applicable for each of the recommended proposals including the revision to be incorporated in the proposals if any, will be provided. The proposals will be considered for further processing only if the requirements are met in time.

The Committee has suggested that ANERT could think of utilising the expertise of the Principal investigator of SRI 18/2020-21 (Dr. Krishnakumar B, Principal Scientist, CTD, CSIR NLIST, Thiruvananthapuram) by arranging a Training Workshop for ANERT biogas plant service providers/operators as envisaged in the proposal.
